► Arts and culture opportunities will only continue to expand in Dallas/Fort Worth. In 2009 the **Dallas Center for Performing Arts**, a new multi-venue performing arts center for music, opera, theatre and dance. The opening of the Center will establish Dallas as the only city in the world with buildings designed by four Pritzker Prize-winning architects in one contiguous block.

► The Meadows Museum at Southern Methodist University has the most significant collection of Spanish art outside of Spain, featuring art from the 10th through 20th centuries.
