NAVEEN JINDAL SCHOOL OF MANAGEMENT

The Jindal School of Management at UT Dallas has a **new initiative** to partner with area small and mid-sized businesses. Does your organization have a strategic project or problem to address? If so, we would welcome the opportunity for a Masters of Accounting team to help you develop a solution. Completing projects for class credit will provide students with valuable practical experience as well as promote the development of communication and transferrable skills. All projects will have faculty oversight. This is a **FREE** service!

## Projects

- Project duration is usually 8 weeks or less in length and can be accepted year-round.
- Many JSOM Masters of Accounting students have undergraduate degrees in other majors which will allow them to complete a variety of projects.
- You define the scope and work closely with the team as they develop a recommended course of action based on their research.
- The students will provide you with a comprehensive written plan and final oral presentation.

To engage JSOM Masters of Accounting students, please contact Lucretia Ensminger at: 972-883-5946 or [lensm@utdallas.edu](mailto:lensm@utdallas.edu).
