

KNOWLEDGE *is the* NEW MONEY...

THE BILLIONAIRE TOUR

FOR IMMEDIATE RELEASE

**Business guru Brad Sugars
North American Tour 2016**

September 21st, 2016 - Dallas, Texas

On Wednesday, September 21st, 2016 world-renowned speaker, author and business guru Brad Sugars will continue his Billionaire Tour in North America, sharing his insights and proven techniques to build wealth.

Following the tenets of his famous 5 Steps system, the charismatic Australian-born business leader offers a unique blend of motivation and practical skills to individuals seeking to buy, run and make super profits from their own businesses, no matter the economic climate. Known for simplifying the steps of building wealth, hundreds of Sugars' students around the world credit his teachings with their ability to make millions.

"Nothing I'm going to teach you is rocket science," says Sugars, "but what I will do is make the path to wealth and a successful life simple. I will lay it out for you as plain as I can, a path so simple that anyone with the will and desire to have a better life—a wealthier life—will find it works for them too."

“ Nothing I'm
going to teach
you is rocket science...**”**

What makes Sugars different from the many business, leadership and motivational speakers out there is that he has been there. He proved his entrepreneurial resolve and earned (and lost) millions in his early twenties. He financially retired at 26, but soon became bored and sought bigger challenges, building the ActionCOACH™ brand into a franchise organization of 1,000 business coaches in 62 countries around the world.

Motivated to share his knowledge with others, Sugars has written 15 highly acclaimed business books, four of them international best sellers, and frequently delivers seminars to audiences around the world. His 2009 "Business Is Booming" seminar tour visited 87 cities in 16 countries.

The Billionaire Tour will change the way attendees think about money, wealth, business and property. Sugars' own success and the success of hundreds of thousands of business owners, property investors and complete novices who follow his system is proof enough that anyone can learn how to become wealthy.

The free seminar will teach the key skills to buying, running and making super profits from one's own business, regardless of the prevailing economy, complete with practical how-to's that business owners can start on immediately.
