

Major Companies and Headquarters

The Dallas-Fort Worth region has been a magnet for corporate headquarters and major company operations, attracting 23 Fortune 500 company headquarters (Core-Mark will make 24 when the newest list is released this summer), and 43 headquarters among the Fortune 1000. In 2019, Charles Schwab announced they, too, will relocate to DFW. A diverse group of household names such as ExxonMobil, Texas Instruments, AT&T, American Airlines, Kimberly-Clark, Toyota, and McKesson call the region home, reflecting the area's strong fundamentals when it comes to workforce, access, and cost of doing business.

The region's corporate powerhouse companies are distributed throughout Dallas-Fort Worth, an indication of its strength, quality of the workforce, and ease of navigation between cities and corporate centers. Scanning the roster of major employers located here, it's easy to see the breadth and depth of the business community, from high-tech industry leaders, telecommunications, logistics, and finance to consumer brands that ease the daily lives of families across the globe. Dallas-Fort Worth's diverse base of employers drives the region's economic strength, so that growth is possible even during weak business cycles.

A critical mass of headquarters and major company operations
