

Nonstop Flight Times from Dallas-Fort Worth

The Dallas-Fort Worth region is globally connected. Dallas Fort Worth International Airport is one of only 14 airports in the world offering service to more than 200 destinations, with new destinations on the way.

In fact, DFW Airport netted many new domestic and international flights in 2019 and has already announced several to begin service in 2020. Highlights of increased service include:

- With a new flight to St. Thomas in the U.S. Virgin Islands that launched in December

2019, DFW passed Chicago O'Hare for having nonstop flights to the most domestic destinations.

- American Airlines now offers Boeing 787 Dreamliner international service to Beijing, Santiago, Sao Paulo, Paris, Seoul, Madrid, and Shanghai.

- In 2019, American Airlines launched 30 new destinations from DFW Airport including new international service to Munich and Dublin.

- Beginning in 2020, American Airlines will add several long-haul destinations—Auckland, Tel Aviv and Tokyo—expanding the region's

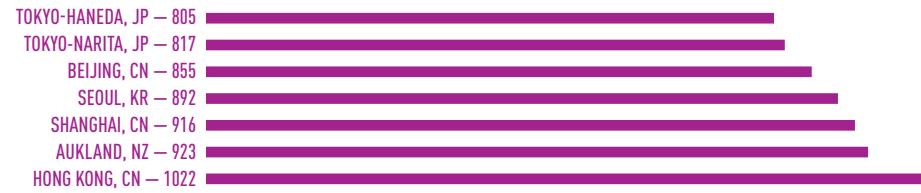

access to the farthest reaches of the world.

- DFW Airport earned the No. 1 ranking for customer service among large airports from Airports Council International, and Dallas Love Field took the No. 2 spot in customer satisfaction ratings from J.D. Power.

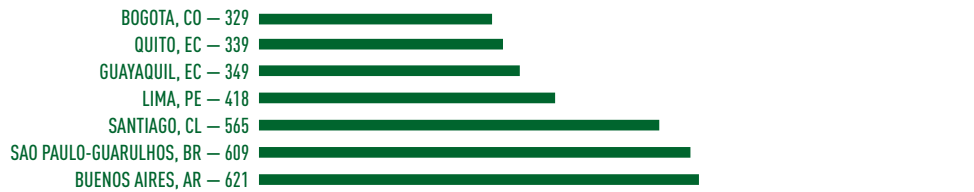

The number of nonstop flights from Dallas Fort Worth International Airport and Love Field provides travelers with plenty of options as well as convenience. New international routes, more carriers, and increases in air service destinations confirm DFW's place as a global super hub.
