Protect your employees, customers and your business

Signs and Visual Graphics are an important part of germ prevention awareness and education. They communicate the importance of hand washing and cleaning procedures as well as traffic flow and directions to make your business run smoothly and efficiently. From building access signs to safety and social distancing cues FASTSIGNS has the solutions to keep your business going.

As businesses and organizations are reopening, it is important to incorporate custom signs and visual graphics that strike a balance between consistent branding and function. Don’t be stuck with cookie cutter COVID-19 compliant signage that disrupts your aesthetic. Make sure your essential signage extends the look and feel of your brand. FASTSIGNS® can develop a graphics package based on your business needs PLUS integrate your logo and company colors so you can stay on brand. Take advantage of this opportunity to stand out and build confidence with your customers.

Ten Steps All Workplaces Can Take to Reduce Risk of Exposure to Coronavirus

All workplaces can take the following infection prevention measures to protect workers:

1. Encourage workers to stay home if sick.
2. Encourage respiratory etiquette, including covering coughs and sneezes.
3. Provide a place to wash hands or alcohol-based hand rubs containing at least 60% alcohol.
4. Limit worksite access to only essential workers, if possible.
5. Establish flexible worksites (e.g., telecommuting) and flexible work hours (e.g., staggered shifts), if feasible.
6. Discourage workers from using other workers’ phones, desks, or other work tools and equipment.
7. Regularly clean and disinfect surfaces, equipment, and other elements of the work environment.
8. Use Environmental Protection Agency (EPA)-approved cleaning chemicals with label claims against the coronavirus.
9. Follow the manufacturer's instructions for use of all cleaning and disinfection products.
10. Encourage workers to report any safety and health concerns.

For more information, visit www.osha.gov/coronavirus or call 1-800-321-OSHA (6742).
