Higher Education Accolades

The Dallas Region’s 70-plus accredited universities and colleges provide the intellectual horsepower to drive one of the nation’s most diverse economies. To do so, students, faculty, and other academics engage in a wide range of studies, from tackling core curricula to honing nanotechnology. The University of North Texas at Denton, the University of Texas at Dallas and the University of Texas at Arlington are among Texas’ seven “emerging research” universities in the Dallas Region, a greater concentration than any other Texas region. UT Southwestern Medical Center, meanwhile, is among the nation’s best in biology and biochemistry research, resulting in numerous clinical breakthroughs and innovations, as well as six Nobel Laureates.

“The area still attracts business and financial services companies, which have reached a critical mass and can draw on a network of necessary support services. Overall growth is buoyed by a well-educated population, a competitive cost structure and the U.S. economy’s strength.”
— Federal Reserve Bank of Dallas study, “At the Heart of Texas”

“The theoretical nature of higher education often creates natural partnerships with cutting-edge industries. The inverse is true as well. The translation into curriculum of research at the frontiers of science, technology, engineering, math and management makes higher education institutions ideal partners for problem-solving across all industries.”
— Dr. Victor Fishman, Executive Director of the Texas Research Alliance

“We took a problem that we didn’t think was solvable. We figured we might have some fun with this and make these students really frustrated. But ... they came back with an answer.”
— Worlds’ CEO, Dave Copps, speaking of the University of Texas at Dallas’ Design Capstone program

“Virtually every major company in the world hasorca a partnership with a University of Texas campus.”
— Dallas Area Chamber of Commerce Higher Education Review

“UT Southwestern Medical Center is the only academic medical center in the world to serve as home to six Nobel Laureates.”

$67.4 billion: Economic activity in the region comes from graduates of DFW institutions, totaling 15% of the total regional economy
— 2019 Perryman Group Study

“0.1% of the population, 20% of the Nobel Laureates.”
— Dallas Area Chamber of Commerce Higher Education Review

“DFW has more Carnegie R-1 (very high research) universities than any other Texas metro.”

Top 100 in the Nation:
UNT Has 19 programs ranked in the top 100 in the nation, according to U.S. News & World Report

“Genuine partnership, collaboration and openness to new ideas sets DFW apart in the nation.”
— Dallas Regional Chamber Higher Education Review

Fastest-growing Doctoral Universities in the U.S.

#1 Region in Texas for higher ed enrollment and degree completion:
23% of all students in Texas are enrolled in a DFW college or university. 24% of all degrees completed annually in Texas come from a DFW college or university. That’s more than any other region in the state.

“Most students in DFW universities are women and non-white.”
— Dallas Area Chamber of Commerce Higher Education Review

#1 Four-year Institution for Veterans
University of Texas Arlington

“Again, DFW-based students have shown significant improvement in reading, writing, and math test scores.”
— Dallas Area Chamber of Commerce Higher Education Review
