

Wages and Salaries

Median wages and salaries in the Dallas-Fort Worth region generally track below other major metro markets, thanks to Texas' pro-business labor environment and low taxes. An abundance of housing that is more affordable compared to major metropolitan areas means employees can still enjoy a higher standard of living at a lower cost than in other markets.

Typical Workers' Compensation Costs

Occupation	Loss Cost*
Electronic Apparatus Manufacturing	\$0.27
Fabricated Products	\$0.96
Machinery Manufacturing	\$0.90
Metal Goods Manufacturing	\$1.20
Sales and Service	\$0.47
Hospital Professional Employees	\$0.23
Office Worker	\$0.04

Basis of Rates per \$100 Payroll

*To determine rates, a company-specific multiplier is applied to the loss cost for a specific occupation classification.

Unemployment Insurance Tax Rate

New employers who do not acquire an existing business start at a tax rate of 2.7%, or the NAICS industry average rate, whichever is higher. The employer will keep the entry level tax rate until the employer's account is chargeable with claims for unemployment benefits for four complete quarters. After these conditions have been met, the effective tax rate is calculated as the sum of five components multiplied by taxable wages. For 2023, the average tax rate is 1.16%.
