

Commuting Patterns

Getting around the Dallas–Fort Worth region is easy, thanks to a well-developed network of interstate freeways, state highways, tollways, and public transit options connecting job centers to fast-growing communities. That’s good news for employers as it allows them to draw from a large base of skilled workers. It’s also good for workers, who can choose from a variety of communities in which to live.

In Dallas and Tarrant counties, the vast majority of workers live and work in the same county. Though these two counties also serve as the region’s biggest magnets for workers, the surrounding counties maintain strong job bases of their own to support the community.

County-to-County Worker Flow

% Live and work in the same county **%** Travel out of county for work
