

# Economic Development Services

The Dallas Regional Chamber (DRC) works with our member companies and regional partners to strengthen our business community by advocating for pro-growth public policies, improving our educational system, attracting talented workers from around the world, promoting diversity, equity, and inclusion, and enhancing the quality of life for all. Our economic development program works directly with companies, location consultants, and local and state allies to market the region and attract new and expanding corporations. We serve as a single point of contact for companies, site selection consultants, and corporate real estate executives examining the region.

- Support to achieve local corporate social responsibility goals

## Our Service Area

The Dallas Regional Chamber's economic development team maintains relationships with regional economic development representatives in 20 North Texas counties as well as The State of Texas Office of the Governor. Through these relationships, we assist companies and site location consultants with their corporate location projects.

### Region Location

## Research and Innovation

The Dallas Regional Chamber maintains a robust and dynamic research and innovation program that is a recognized voice for the Dallas Region's business community.

### Priorities

- Ensure that DRC leaders, the larger business community, and other decision makers have ready access to information that supports economic development, public policy, education & workforce, talent, diversity, inclusion, community engagement, and other strategic initiatives
- Create research products that tell the "DFW Story," including the breadth, quality, and successes of the DFW community
- Support the launch and growth of innovation activities by connecting entrepreneurs, innovators, researchers, and the business community
