

# Training, Colleges, and Universities

The Dallas-Fort Worth region offers a variety of public and private educational opportunities with robust programming in life sciences, engineering, and the arts. The University of North Texas at Denton, the University of Texas at Dallas, and the University of Texas at Arlington are among Texas’ eight “emerging research” universities. These schools are expanding program capabilities and funding in pursuit of remaining at the top end of research institutions as defined by the Carnegie Classification methodology. UT Southwestern Medical Center is among the nation’s top in biology and biochemistry research, boasting countless clinical breakthroughs and innovations.

## Higher Education

A wide array of universities and colleges attracts students from all over the world.

## DFW Higher Education Institutions

Total Enrollment (2023, preliminary) and Degrees Awarded (2021-2022) for Select Institutions

Institution	2023 Enrollment	Associate's	Bachelor's	Master's	Certificates Post-Bachelor's or Master's	Doctorate
Amberton University	895		82	321		
Austin College	1,138		365	16		
Collin County Community College District	36,380	4,361	27			
Criswell College	157	2	20	5		
Dallas Baptist University	4,201	26	618	337	1	43

Texas Research Alliance:  
Building Collaborations Between  
Companies and Universities

Personalized service helps cut costs, reduce time to market, and connect companies with the resources and expertise of the Dallas-Fort Worth innovation ecosystem.

CONNECT

- The TRA works with companies to understand their research and innovation needs and bring its network of university faculty, high-growth companies, and startups to help solve challenges.
- The TRA enables access to industry collaborations.
- The TRA engages companies into a large network of expertise in areas such as: AI/ML, defense innovation, mobility, robotics, edge computing, sensors, SBIR, STTR, IoT, and more.

ABOUT

- 501(c)(3) non-profit organization
- Founded by four of the largest chambers of commerce in Dallas-Fort Worth
- Aligned with the premier research universities and colleges across Dallas-Fort Worth
- Engaged to ensure that Dallas-Fort Worth industries, non-profits, municipalities, and public agencies can access and leverage regional research and innovation resources
- No charge for TRA support, and collaborations can work under non-disclosure agreements

Consider a Capstone Partnership

Productive ways to engage with DFW research universities include Lab and Facility Use Agreements, faculty consulting, Sponsored Research Agreements (IP rights considered), internships, and capstone projects. Capstone projects are an ideal way to solve engineering and development problems that you just don't have the human resources to get to, while at the same time working with teams of students that may one day be your team leaders or even the CEO of your company. By partnering with external sponsors, students not only work on real world projects, but also gain valuable team-building experience in a results-oriented environment.
