

Aviation and Aerospace

Dallas-Fort Worth is among the nation's top regions for aviation and aerospace activity. The region is home to the headquarters of two major airlines: American Airlines (Fort Worth) and Southwest Airlines (Dallas). Southwest operates a major maintenance base at Dallas Love Field, creating a strong foundation for aviation employment. Envoy Air, a regional jet operator and American Airlines partner, is headquartered in Irving, as well.

The regional aerospace industry comprises more than 700 companies, accounting for more than 100,000 jobs in North Texas.

Industry leaders Lockheed Martin and Bell Helicopter are among the largest employers in the region. Combined they employ more than 15,000 workers. And the North American headquarters of Airbus Helicopters is in Grand Prairie.
