

Health Care

Health care companies are located throughout the Dallas-Fort Worth region where they can tap into a broad base of skilled employees. Dallas' medical community includes the highly rated UT Southwestern Medical Center and Baylor University Medical Center, as well as Parkland Hospital's burn center, one of the most recognized units in the nation. The health care industry in DFW is more than services, however. It also encompasses manufacturing, research, and goods distribution. The activities often cluster around each other, creating synergy within the health care community.
