

# Life Science

The Dallas-Fort Worth life science industry is dominated by pharmaceutical, optical, and medical device manufacturers, such as Alcon (Fort Worth) and EssilorLuxottica (Dallas). The region has shown enormous capacity to attract major industry players like McKesson and Galderma.

The convergence of innovative research and development with regional expertise in emerging technologies defines DFW's life science industry. UT Southwestern Medical Center in Dallas is among the nation's best in biology and biochemistry research, while UNT Health Fort Worth and Pegasus Park (Dallas)—regional hubs for life science discovery and commercialization—are providing a supportive ecosystem that attracts the most promising startups and federal investments like the ARPA-H Customer Experience Hub.
