

# Manufacturing

The Dallas-Fort Worth region is often associated with major headquarters, logistics, distribution, and supply chain operations. But people might not realize that the manufacturing industry makes up seven percent of the regional economy by employment.

DFW has more manufacturing activity than any other metro area in Texas. The size and scope of operations create a diverse manufacturing landscape across many sectors. Goods produced in DFW range from boots and clothing to bricks, steel, plastics, SUVs, and aerospace components.

Just a few of the large manufacturing operations in DFW include the General Motors Assembly Plant in Arlington, Lockheed Martin in Fort Worth, and Texas Instruments in Dallas.

## Share of Statewide Manufacturing Employment by Metro

## A Cornerstone of Our Economy

Dallas-Fort Worth has more manufacturing activity than any other metropolitan area in Texas.
